Hey Roberto, you created this TDD under the CERCLA TO, not the FEMA TO. Assuming it's still supposed to be under FEMA, please recreate it under TO 4. Thanks!

Will, just drafted on EAS under 0600 but to use H001. \$75,000 ceiling. We were on 24-hr operations for 4 days.

Subject: RE: Arkema

That would work. The put 0600 in the box for SSID but in the description of work put the following:

SSID: H001

Also reference the verbal tasking/start date.

Althea. I'm back in the office tomorrow and can draft it on EAS so you can concentrate on your stuff.

Will,

I spoke to Steve and he recommended that we issue a separate TDD under the Hurricane Harvey Response Task Order. So the TDD will use the same SSID. I will put the TDD in EAS.
